EISEMAN BROS., Corner 7th and E.

THIS IS A MOTHERS' STORE

-first, last, and all the time. From its very beginning we have made it a point to sell the very best boys' clothes-the sort which are strongly sewed and of qualifies which are proof against the hard wear which "beyish" boys give their clothing.

\$2.50 here is equal to \$3 elsewhere, and \$3 here buys as much as \$5 buys elsewhere.

Splendid assortments in boys' vestie and double breasted all-wool fancy and plain black and blue cheviots and cassimeres at \$2.50, for which others get \$3, and at \$3.50, which are in most stores at \$5. Better made suits than these are not possible to produce, and tomorrow is a most accepted time to convince yourself that the greatest values are here.

Needn't pay more than \$2 for a hat

for a serviceable, fashionable spring derby or fedora. We could get \$3 for these hats just as other men's stores get \$3 for equal grades. But we won't. Selling them at \$2 the in line with our established policy of always giving you more for your money than others do. Black

ACTIVE AND IRREGULAR

The Market Affected by London's Failure to Respond.

Local Traction Shares Decline Sharply and Sugar Refining Experiences a Slight Reaction-Baltimore and Ohio Goes Lower-The Other Railways Exhibit Strength

NEW YORK, March 23 .- The Stock Market opened exceedingly active and irregular changes resulted from the early dealings. All the local traction stocks declined rather sharply in advance of the imposition of the new franchise taxes. Sugar Refining also reacted slightly, but elsewhere the industrial quarter had a rather firm tone. The trading continued most animated, however, in the railway list, which for the most part was again strong. Baltimore and Ohio was an exception in a rather sharp further decline, but renewed strength was shown by Pennsylvania, the

Wheeling and Lake Erie, Louisville and Nashville and Norfolk and Western issues.

The initial tone of irregularity was largely on account of the fact that the London market did not respond fully to the advances made here yesterday. At one time during the day American stocks were quoted in London fully up to the New York parity, but subsequently they developed a reactionary tone. This was accounted disappointing, in view of the large part taken by London in yesterday's advance. Aside from this circumstance, there was little that was new bearing upon the market, although the probable showing to be made by the banks tomorrow was, as is made by the banks tomorrow was, as is usual toward the end of the week, disussed with considerable interest. the gains in the securities is the best reason for gains.

The Soft Coal stocks continue to attract much attention. In this morning's market they were the most consplcuous in the list. Pennsylvania advanced to 39, the highest price for many months; Norfolk and Western, common, advanced fractionally above yesterday's best price, and

the Wheeling securities were strong. It is said that the Pennsylvania will benefit most of all this group from the advance in coal rates on April 1. This fact, added to the already enormous net earnings of the company and re-enforced by hints that the long-expected advance in the Pennsylvania dividend is near at hand, have served to create much bullish enthusiasm regarding the stock. Norfolk and Western, common and preferred, are helped by much the same factors, and in addition there is now very little doubt in the Street that the Pennsylvania is in control of the property, or will be shortly. There is excellent buying the Norfolk securities in London.						

It is rumored that the Wheeling and Lake Eric is making some deal with the Baltimore and Ohio. Another rumor is that large blocks of Southern Railway se-curities are being purchased by the intercurries are being purchased by the inter-ests composing the great eastern trunk line syndicate. These stories, with first of Pennsylvania control of Norfolk and West-ern are all taken to indicate a closer al-llance of these interests. It is believed in the Street that such an alliance is one of the greatest of bull arguments.

The grangers were somewhat inactive this morning and they all sold off from the best prices of yesterday. St. Paul sold ex-dividend 21-2 per cent, and did not regain any of the dividend during the morning

The buying in Southern Pacific is good, The buying in Southern Facilic is good, but as yet there has been no attempt apparently to advance the price much above 40. The clique people talk of a much higher level for it in the near future, however.

There was heavy realizing in the Stock Market this morning and as a result a tendency to declining prices during the first two hours at least. Some securities, the Southern Railways, Norfolk and Western Common and Pennsylvania among them made new high prices at the opening but for the most part the level was below the best of yesterday. There is much stock in the hands of people who bought at considerably lower prices and from time to time on the bulges this stock is certain to come out. If there is to be a boom the public will absorb all of this stock and bid for more from people that are not anxious to cell. The sellers will buy back securities in the small sections. There is every indication of a sturdy bull market such as has not been seen for a good many mouths but if the public becomes too enthusiastic and begins to boom prices at too rapid a pace there is likely to be a squeeze in call money rates. As has been pointed out heretofore if the market is to continue to advance in a broad and important way reactions such as that of this morning are actions such as that of this morning are not only beneficial but necessary. Up to the present time the advance has been an eminently sane one for the most part, with the gains in the securities where there is the best reason for gains.

PHONOGRAPHIC FIRE ALARM. Chief Hale's Automatic Device for Summoning Firemen.

CHICAGO, March 23.-Fire alarms will e shouted in the engine houses of the city by means of phonographs if a newly patented automatic machine tested Wednesday afternoon comes into use in Chicago. The new device is the invention of George ing the trial. He answered "Not guilty" C. Hale, Chief of the Kansas City Fire De- to the indictment. Washington is defendpartment. He invented the Hale tower and ed by former District Attorney Detweiler

ease of temperature resulting from a fire. When the temperature goes above the max-imum fixed for the building, an electric circuit is opened and that puts into oper-ation a phonograph which talks into a telephone, telling headquarters that there is a fire at whatever address the alarm is located.

Had Driven Mules Before.

(From the Philadelphis Call.)

Daniel C. Pomeroy, once a prominent New York criminal lawyer, in his early life was a stage driver on the old Butterfield line, and gleaned his legal education largely upon the box seat of his coach, or while change of horses was being made at the stations. He was associated with others in the defence of one Mrs. McCatthy, on her trail at Uftics for the murder of a man named Hall of Ogdensburg, who was killed by a bullet from her revolver, which was aimed at another man. Judge Doolittle presided at the trial, and seemed to believe in the prisoner's guilt. The judge was bitter—and so was Pomeroy. The latter made an objection and insisted upon it rather strenuously. "Mr. Pomcroy," said the judge, "I am not a borse, and can't be driven." "Well. your honor, I learned in my early experience to drive mules, and I will try to keep up my former reputation."

In his answer Mr. Page denies the charge made by his wife against him that he had always treated her cruelly and furthermore he puts in a plea of "condonation." He also states that while he was at work, since the filing of the suit by his wife, she went to his home and took his two calldren away and refuses to let them return or to let him visit them. He states that his wife abuses the children and is not a proper person to have their care or custody.
